May 2022 – Jun. 2025 **Web & Low-Code Developer**
Itglee Consultant, Figueira da Foz

AngularJS / Node.js Developer (3 months)
Partner: Noesis · Client: Santander

- Collaborated with cross-functional teams to design and implement reactive front-end features using Angular, RxJS, and Signal Store. The application was developed to manage permissions and certificates for technical and functional applications, ensuring security and operational efficiency. I contributed by applying best practices in TypeScript development, version control, and defect resolution, while ensuring maintainability, scalability, and performance within Agile workflows.

Technologies: HTML · CSS · AngularJS · JavaScript · TypeScript · Git · GitHub · Microsoft Planner · Postman

ReactJS / Node.js Developer (5 months)
Client: Travel Agency Belle Epoque · Project: Backoffice Internal Management Application

- In this project, I designed and delivered a full-stack solution for managing client data, quote requests, and file storage. I integrated Google Drive to automate workflows and improved internal efficiency through a modern, responsive interface. I collaborated closely with the team in an Agile environment, contributing to planning, sprint execution, and defect resolution.

Technologies: HTML · TailwindCSS · React JS · Node JS · AWS DynamoDB · JavaScript · Git · GitHub · Agile · Jira

Outsystems Reactive Developer (2 years – 2 months)
Partner: Deloitte · Client: PPL Next Gen

- A digital-first electronic trading platform for the London insurance market, designed to modernize and streamline broker–underwriter interactions. I was responsible for requirement analysis and development, as well as resolving both production and development defects in close collaboration with the testing team, alongside performance optimization. Working within Agile sprints, I contributed to delivering a scalable, intuitive, and high-quality platform that enhanced efficiency and reliability across the market.

Technologies: OutSystems · Agile · Jira · MongoDB · Azure DevOps · Postman

Internship – Outsystems Web Developer (6 months)
Project: Hotel Bookings Web Reactive App

- I began as an OutSystems Web Developer Intern, where I learned the platform and developed a training reactive web application for hotel bookings, gaining hands-on experience in SQL, Agile methodologies, and Scrum.
